The inside track on how to beat the "logic puzzle" job interview As if job interviews weren't nerve-wracking enough, many companies, in their pursuit of the brightest and best, have begun beleaguering applicants with tests of logic, creativity, and analytical abilities. Many firms have replaced traditional interview questions such as "Tell us about yourself" or "What's your biggest weakness?" with mind-benders such as: Why are beer cans tapered at both ends? How many piano tuners are there in the world? How many Ping-pong balls can you stuff into a Boeing 747? How would you design a bathroom for the CEO of the company? If you could remove any one of the 50 U.S.states, which one would it be? In How to Ace the Brain Teaser Interview, bestselling careers author John Kador gives readers the inside track on this new interview technique. He provides 75 puzzles actually used by HR departments across the nation, and he offers tips on how to solve them and present the solutions so as to make the best possible impression.

Brainteaser sind beliebt in Einstellungstest für Top-Jobs. Der Fokus liegt auf: Mathematischen Denkspielen, Logikrätseln, „Trial and Error“-Lösungsmethoden, „Out-of-the-box“-Denken, Bilderrätseln und Schätzaufgaben. Wie schwer ist eigentlich Man-hattan? Viel Spaß beim Gehirnjogging!

For years, Microsoft and other high-tech companies have been posing riddles and logic puzzles like these in their notoriously grueling job interviews. Now "puzzle interviews" have become a hot new trend in hiring. From Wall Street to Silicon Valley, employers are using tough and tricky questions to gauge job candidates' intelligence, imagination, and problem-solving ability -- qualities needed to survive in today's hypercompetitive global marketplace. For the first time, William Poundstone reveals the toughest questions used at Microsoft and other Fortune 500 companies -- and supplies the answers. He traces the rise and controversial fall of employer-mandated IQ tests, the peculiar obsessions of Bill Gates (who plays jigsaw puzzles as a competitive sport), the sadistic mind games of Wall Street (which reportedly led one job seeker to smash a forty-third-story window), and the bizarre excesses of today's hiring managers (who may start off your interview with a box of Legos or a game of virtual Russian roulette). How Would You Move Mount Fuji? is an indispensable book for anyone in business. Managers seeking the most talented employees will learn to incorporate puzzle interviews in their search for the top candidates. Job seekers will discover how to tackle even the most brain-busting questions, and gain the advantage that could win the job of a lifetime. And anyone who has ever dreamed of going up against the best minds in business may discover that these puzzles are simply a lot of fun. Why are beer cans tapered on the end, anyway?

Sometimes employers ask interview questions that are a challenge to answer. Many companies, especially those involved in IT and management consulting, include brain teaser questions in their job interviews. They are loved by human resources managers and hated by job candidates: brainteasers. As a matter of fact, companies like applying brainteasers during their job interviews to test the applicants in dealing with knowledge tasks. In this book, you find everything you need to master brainteasers successfully. Besides general solving strategies and useful tricks, you get 50 challenging brainteasers including sample solutions and lessons learned. Prepare your job interview in a structured way or just have fun in brain jogging and solving puzzles.

Number puzzles, spatial/visual puzzles, cryptograms, Sudoku, Kokuro, logic puzzles, and word games like Frame Games are all a great way to teach math and problem-solving skills to elementary and middle school students. In these two new collections, puzzle master Terry Stickels provides puzzles and brain games that range from simple to challenging and are organized by grade level and National Council of Teachers of Mathematics (NCTM) content areas. Each book offers over 300 brain games that will help students learn core math concepts and develop critical thinking skills. The books include a wide range of puzzle types and cover a variety of math topics, from fractions and geometry to probability and algebra.

GCHQ is a top-secret intelligence and security agency which recruits some of the very brightest minds. Over the years, their codebreakers have helped keep our country safe, from the Bletchley Park breakthroughs of WWII to the modern-day threat of cyberattack. So it comes as no surprise that, even in their time off, the staff at GCHQ love a good puzzle. Whether they're recruiting new staff or challenging each other to the toughest Christmas quizzes and treasure hunts imaginable, puzzles are at the heart of what GCHQ does. Now they're opening up their archives of decades' worth of codes, puzzles and challenges for everyone to try.

Learn how to succeed at interview mind games and win job offers at A-list companies, with more than eighty difficult and devious questions, puzzles, and brain teasers Each year about 28 million Americans begin a search for a new job. Many more live in the age of the permanent job search, their online profiles eternally awaiting a better offer. Job seekers are more mobile and better informed than ever, aspiring to work for employers offering an appealing culture, a robust menu of perks, and opportunities for personal fulfillment and advancement. The result is that millions of applications stream to the handful of companies that regularly top listings of the best companies to work for: Apple, Netflix, Amazon, Alphabet, Disney, SpaceX, Oracle, Pricewaterhouse-Coopers, and others. Tesla has received as many as 200 applications for each open position. How do selective employers choose which people to hire? It's through interviews asking uniquely demanding questions testing imagination, persistence, and creativity, like: Can an astronaut throw a baseball so it hits Earth? If you had \$2,000, how would you double it in 24 hours? How is a milk carton like a plane seat? Chicken McNuggets come in boxes of 6, 9, and 20. What's the largest number of McNuggets that McDonald's can't sell you? How many dogs in the world have the exact same number of hairs? How Do You Fight a Horse-Sized Duck? explores the new world of interviewing at A-list employers. It reveals more than eighty notoriously challenging interview questions and supplies both answers and a general strategy for creative problem-solving.
