Many of the earliest books, particularly those dating back to the 1900s and before, are now extremely scarce and increasingly expensive. We are republishing these classic works in affordable, high quality, modern editions, using the original text and artwork.

"Provides detailed information on how to operate, maintain, and repair string trimmers and blowers; ... the following manufacturers of electric and gasoline powered string trimmers and blowers are covered: Alpina, Black & Decker, Bunton, John Deere, Echo, Elliot, Green Machine, Hoffco, Homelite, Husqvarna, IDC, Jonsered, Kaaz, Lawn Boy, Maruyama, McCulloch, Olympyk, Pioneer-Partner, Poulan, Redmax, Robin, Roper-Rally, Ryan, Ryobi, Sachs-Dolmar, Sears, Shindaiwa, SMC, Snapper, Stihl, Tanaka (TAS), Toro, TML (Trail), Wards, Weed Eater, Western Auto, Yard Pro, Yazoo; specific repair instructions for string trimmer and blower gasoline engines are covered for the following manufacturers: John Deere, Echo, Efco, Fuji, Homelite, Husqvarna, IDC, Kawasaki, Kioritz, Komatsu, McCulloch, Mitsubishi, Piston Powered Products, Poulan, Sachs-Dolmar, Shindaiwa, Stihl, Tanaka (TAS), Tecumseh, TML (Trail)"--Page 4 of cover.

Everything you need to know to estimate, build, and repair practically every type of roof covering: asphalt shingles, roll roofing, wood shingles & shakes, clay tile, slate, metal, built-up, and elastomeric. Shows how to measure and estimate most roofs (including estimating shortcuts discovered by the author), how to install leak-proof underlayment and flashing, and how to solve problems with insulation, vapor barriers, and waterproofing. Over 300 large, clear illustrations that help you find the answers to all your roofing questions.

With this new book you'll quickly learn, step-by-step, the basic methods (and some valuable tricks of the trade) to master high-speed metal stud framing in commercial construction. If you're an experienced wood framer, you already have many of the skills you'll need. This manual, written by a framer who runs work for one of the largest metal stud contractors in the country, tells you just about everything you need to know to transfer those skills to metal stud framing in commercial buildings.

After disassembling and gutting your car, it is easy to feel that you're in way over your head when it comes to the upholstery. This is why so many do-it-yourself restorers outsource the work, at considerable expense, to an experienced upholstery shop. Taking the time to acquire the skills for upholstery restoration may feel like a daunting task, but what if an experienced upholsterer presented every skill you needed to restore upholstery yourself? Starting with a list of necessary tools, author Fred Mattson guides you through all the required tasks, including seat restoration; door panel removal, patterning, assembly, and installation; headliner removal and installation; carpet cutting; and even convertible top restoration. The easy-to-follow step-by-step presentation allows for a thorough understanding of all the processes. Every photo in this book provides a hands-on approach that shows you how to repair and restore a car's interior to concours, show-quality specifications. Other restoration books may show you beautifully restored interiors, but they don't show you how to produce them. This book helps you develop the skills needed with instruction from a professional upholsterer, saving you thousands of dollars over outsourcing the restoration. If you are interested in saving money, doing a complete restoration yourself, or simply want to know how it's done, this book is a handy addition to your automotive library.
