Real estate mogul Jack Winter has rules. Lots of rules. After all, a man doesn't build an empire without a little discipline. And on page one of the rulebook? Don't sleep with your employees. Especially when there's a multimillion dollar real estate deal at stake... Luckily for Jack, Cassie James isn't really his employee. She's a hot bartender who just happens to be the math genius he needs, and if they share a wicked chemistry? Well, that's just a sexy little perk. So they strike a deal: Cassie helps Jack with the merger. And until the deal goes through at Christmas, they can indulge every impulse they desire. But the more rules Jack makes, the more he seems to break...

Trouble with your PC? What do you do if your hard disk crashes or all you see are black lines on your monitor? With this handy "Troubleshooting" guide, it's easy to pinpoint -- and solve -- your own hardware and software problems. Fast! Each section opens with a troubleshooting chart to help quickly diagnose the source of the problem. It offers clear, step-by-step solutions to try right away, plus a full chapter of things to do to stay out of trouble or learn a new trick. Continuous support via the Troubleshooting "Latest Solutions" Web site provides monthly updates on additional problem solving information. Books in the "Troubleshooting" series are colorful, superbly organized, and easy to read, giving even novice users the confidence to fix it themselves -- without sending their PCs to the shop or wasting time on futile trial and error.

After a brief introduction to the topic of business process modeling, the book offers a quick-start into model-based business process engineering. After that, the foundations of the modeling languages used are conveyed. Meaningful examples are in the foreground - each of the underlying formalisms is treated only as far as needed. Next the Horus Method is described in detail. The book defines a sequence of activities which finally leads to the creation of a complete business process model. The Horus Method, incidentally, is not bound to the use of the Horus software tools. It can be used with other tools or, if necessary, be used even without tool support. Important application fields of business process engineering are described, where the spectrum ranges from business process reengineering to the development and implementation of information systems. The book concludes with an outlook on the future of business process engineering and highlights current research activities in the area.

Presents a collection of short mystery stories set in the state of New Jersey by such authors as Bradford Morrow, Sheila Kohler, Richard Burgin, and Alicia Ostriker.

Whether you realize it or not, you play a part in the divine plan of creation. Once you recognize this, you can gain access to the immense power in the universe. It ' s simple: when you engage the right celestial helpers, anything becomes possible. In Hiring the Heavens, Jean Slatter shares how she learned to hire the Heavens and offers a fresh, revitalized way of bringing spirituality back into your everyday life. Whether the task is large or small, whether you want to manifest your dreams, find a soul mate, improve your finances, or simply get through your days without stress and worry, the Heavens are ready to help. With their assistance, you become cocreator and codirector of your life, experiencing more joy and more serendipity every day.
