Seeing is Understanding. The first VISUAL guide to marine diesel systems on recreational boats. Step-by-step instructions in clear, simple drawings explain how to maintain, winterize and recommission all parts of the system - fuel deck fill - engine - batteries - transmission - stern gland - propeller. Book one of a new series. Canadian author is a sailor and marine mechanic cruising aboard his 36-foot steel-hulled Chevrier sloop. Illustrations: 300+ drawings Pages: 222 pages Published: 2017 Format: softcover Category: Inboards, Gas & Diesel

Prepare your students to meet the demands of today's business world with the proven, practical dual approach in Burton/Shelton's BUSINESS MATH USING EXCEL, 2nd Edition. This book equips readers to master the math concepts most useful in contemporary business by first teaching students the traditional methods of calculating. The authors then emphasize a second approach that teaches the same math concepts using the functions of Microsoft Excel. This edition of BUSINESS MATH USING EXCEL prepares students to use the latest version of Excel 2010. Your future

business professionals learn to create formulas and master the functions of Excel while developing high level math skills and refining other skills that will prepare them to succeed in the workplace. This edition's new, full-color design presents concepts in manageable sections to help build confidence for students at all levels of math proficiency. New profiles and new personal finance features emphasize the practicality of the book's content as they demonstrate how professionals use math daily and highlight common consumer issues. A new CourseMaster outcomes-based learning solution with homework tools and automatic grading saves you time while helping students focus on the concepts most important for business math success. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Urea-SCR Technology for deNO_x After Treatment of Diesel Exhausts presents a complete overview of the selective catalytic reduction of NO_x by ammonia/urea. The book starts with an illustration of the technology in the framework of the current context (legislation, market, system configurations), covers the fundamental aspects of the SCR process (catalysts, chemistry, mechanism, kinetics) and analyzes its application to useful topics such as modeling of full scale monolith catalysts, control aspects, ammonia injections systems and integration with other devices for combined removal of pollutants.

Earthen architecture is widespread all over the world and demonstrates a significant richness of varieties both in application and in materials used. This book

discusses and debates the lessons that can be learned from earthen architecture to create sustainable architecture today, both for the conservation of traditional existing buildings and the design and construction of new ones. It deals with the study of earthen architecture around the world in order to preserve our earthen built heritage and proposes these building techniques as a sustainable option for building a new architecture of the future. Earthen Architecture: Past, Present and Future will be a valuable source of information for academics and professionals in the fields of Civil Engineering, Construction and Building Engineering and Architecture.

This machine is destined to completely revolutionize cylinder diesel engine up through large low speed t-engine engineering and replace everything that exists. stroke diesel engines. his idea for a rational heat engine fuels while keeping exhaust as clean as possible as well into reality more than 100 years ago. Once the patent as further increasing diesel engine power density and was filed in 1892 and work on his engine commenced enhancing operating performance.

First published in 1944, *The Building of Jalna* is one of sixteen books in the Jalna series written by Canada's Mazo de la Roche. In *The Building of Jalna*, Adeline, an impulsive bride with an Irish temper, and her husband, Captain Whiteoak, select Lake Ontario as the site of their new home. De la Roche chronicles their trials and tribulations during the building of the house, the swimming and skating parties, and the jealousies and humourous events that arise. This is book 1 of 16 in *The Whiteoak Chronicles*. It is followed by *Morning at Jalna*.
