What to do when food is NOT your best friend. According to a recent Self Magazine, 65% of all women have an unhealthy relationship with food. Often they use food to numb feelings and become binge eaters or overeaters. Food becomes their primary means for coping with everyday stress, anxiety, and other difficult feelings. Drawing on her experience of working with compulsive overeaters and binge eaters for over twenty years, Meryl Beck has developed a revolutionary approach for rewiring your brain that incorporates spiritual, physical and emotional tools for getting healthy. This 21 day plan brings together tools from psychotherapy, the 12 Steps, personal growth, work, and energy healing. Stop Eating Your Heart Out offers a way to rewire the brain to respond differently to the impulses and feelings that create bingeing. Beck, a therapist, and former binge takes an approach to recovery from emotional eating that incorporates spiritual, emotional, and energy work.

Finding My-Self takes an occult approach to autobiography. The book quickly engages with the nature of the self which is composed of soul (or higher Self) and personality (or lower self). The nature of the personality is considered and then attention turns to the soul and how it can be invoked by meditation. Visualisation is seen as a useful means by which to stimulate the thinking process which carefully, persistently and regularly adopted can be expected to help us draw the thinker closer to the soul. Initially it may be little more than fleetingly sensed. However, a lifestyle focused on dedication to this higher Self sets those who meditate on the path of soul contemplation. Care is taken to explain the process whereby the higher Self may be envisaged. At the same time the book provides many issues of importance to the autobiographer and also pays attention to healing since often, those who recall their lives experience pain by so doing. Jo Waldman lives life to her own soundtrack—working for her father by day while pursuing her music career in NYC's downtown clubs at night. Music is her passion, along with her boyfriend, Jesse, who shares her dreams of making it big. Jo's old band, The Lonely Hearts Club, came thisclose to getting a huge recording contract, and she's just biding her time, waiting for lightning to strike twice. The music business is tough, but so is Jo. So when Jo's father fires her and Jesse breaks up with her, Jo doesn't get upset—she just wants to rage. Dusting off her computer, Jo writes a blog entry, pouring her heart out about the shortcomings of love. Except that no sooner does Jo hit “upload” than the site sends a mass e-mail to the entire Lonely Hearts mailing list, alerting everybody Joe has ever met that she's been brutally dumped. All Jo wants to do is hide under the covers, but to her surprise, supportive e-mails start flowing in—many of them from complete strangers. Apparently, her anti-love rant has struck a chord. The Lonely Hearts Club Blog develops a huge following, even capturing the eye of Jo's sworn nemesis, bubble gum pop princess Amber Fairchild. Jo soon becomes an icon for all things “anti-love,” and at her fans' request, she begins to plan The Lonely Hearts Club Ball—a massive anti-love Valentine's Day party to end all parties. Jo quickly becomes the poster girl for lonely hearts, and it inspires her to start writing music again. There's only one problem: the web programmer helping Jo with her site is simply dreamy. Jo's never been very good at depriving herself of anything, but if this budding romance is exposed, she'll be revealed as an 'anti-love' fraud and risk losing all the people who have grown trust her voice. So is it time to start singing love songs, or time to pick up the guitar and return to the hard rock that almost got The Lonely Hearts signed in the first place? Either way, Jo's got some big decisions to make, and it looks like she's going to have to take one step closer to doing something she never thought she'd do—becoming a grownup. From Brenda Janowitz, author of the beloved Brooke Miller novels SCOT ON THE ROCKS and JACK WITH A TWIST comes another uproariously funny and heartfelt story that will ring true to anyone who's dug themselves into a hole only to find that getting out is where you least expect it.

Six disgruntled teens are forced to spend their winter break at fat camp during Flagstaff, Arizona's worst blizzard in a century, only to find that Camp Featherlite is even worse than expected because it is crawling with genetically-modified monsters.

With unsentimental prose and ironic dialogue, Katie Boland brings to life a variety of characters who all have one thing in common—a need for something more. A literary debut by a refreshing new voice in fiction, the stories in Eat Your Heart Out are about the haunted and heartbroken, about dreamers, losers and love-lost souls. From a sixteen-year-old autistic savant who's sleeping with his best friend's mother, to a tattooed beauty coming to terms with an alcoholic parent, to a newspaper man forever changed by a tender drifter, to a grief counsellor trying to reconcile her own tragic loss, the stories examine the fragility of human relationships and why people love the way they do. Bold, poignant and affecting, Eat Your Heart Out is a clear-eyed exploration of youth, life, love, sex and death.

Still, considering her limited options, she gamely takes up the challenge of running the kennel. And as Rachel starts finding new homes for the abandoned strays, it turns out that it might not just be the dogs that need rescuing.
