ascend off the ground, the strategic significance of air intelligence became apparent. This relatively new discipline\_the first dedicated air reconnaissance missions were undertaken in 1870 during the siege of Paris when tethered French balloons were employed to spot enemy positions and direct artillery fire onto them\_has developed

at an astonishing speed. Over the past century air intelligence has moved from hazardous observation balloons to micro-circuitry, which can send pictures from a video camera mounted on a remotely-controlled vehicle the size of a hummingbird. The Historical Dictionary of Air Intelligence relates the evolving history
