Prentice Hall Physical Science: Concepts in Action helps students make the important connection between the science they read and what they experience every day. Relevant content, lively explorations, and a wealth of hands-on activities take students' understanding of science beyond the page and into the world around them. Now includes even more technology, tools and activities to support differentiated instruction!

If you have obsessive-compulsive disorder (OCD), you might have an irrational fear of being contaminated by germs, or obsessively double-check things. You may even feel like a prisoner, trapped with your intrusive thoughts. And while OCD can have a devastating impact on your life, getting real help can be a challenge. Combining mindfulness practices with cognitive-behavioral therapy (CBT), *The Mindfulness Workbook for OCD* offers practical and accessible tools for managing the unwanted thoughts and compulsive urges that are associated with OCD. With this workbook, you will develop present-moment awareness, learn to challenge your own distorted thinking, and stop treating thoughts as threats and feelings as facts. This fully revised and updated second edition also includes new meditations, information, and chapters on emotional and mental contamination, existential obsessions, false memories, and more. If you're ready to take back your life

back from OCD—and start living with more joy in the moment—this workbook has everything you need to get started right away.

From the author of *The Presentation of Self in Everyday Life*, Stigma analyzes a person's feelings about himself and his relationship to people whom society calls "normal." Stigma is an illuminating excursion into the situation of persons who are unable to conform to standards that society calls normal. Disqualified from full social acceptance, they are stigmatized individuals. Physically deformed people, ex-mental patients, drug addicts, prostitutes, or those ostracized for other reasons must constantly strive to adjust to their precarious social identities. Their image of themselves must daily confront and be affronted by the image which others reflect back to them. Drawing extensively on autobiographies and case studies, sociologist Erving Goffman analyzes the stigmatized person's feelings about himself and his relationship to "normals" He explores the variety of strategies stigmatized individuals employ to deal with
