Be The Man Who Wasn't There. Invisibility gets you into spy rings, diplomatic circles, and the girl's locker room, but you need something more to protect yourself from Big Data, Big Government and Big Brother. You need one book to rule them all. This is that book. Whether you're a burned CIA agent on the run or a missionary hunted in North Korea, you need to communicate anonymously. Incognito and off the grid as only the best survivalists know how. In this explosive yet easy to read book, Lance Henderson uses true-life adventures (and grievous mistakes!) to show you how the Powers That Be steal your freedom, your assets, your guns, and even your identity without you knowing it.

This book is an illustrated guide to assistive technologies and devices (AT/AD). It chronicles the use of AT/AD - technology used by individuals with disabilities to perform functions that might otherwise be difficult or impossible. In general, AT can include mobility devices such as walkers and wheelchairs, as well as hardware, software, and peripherals that assist people with disabilities in accessing computers or other information technologies. Advanced AT has coincided with the advent of personal electronic devices that could be customized for use, such as computers and smart phones. For people with disabilities, AT includes simple gadgets for the home and office, electronic gadgets and complex computer systems for the workplace, mobility aids and accessible vans for getting around and modified equipment for

lifestyle needs, such as talking ATMs and strobe light alarm systems. This book empowers people with disabilities to use assistive technologies to overcome some of their physical or mental limitations and have a more equal playing field. It includes real-life examples about how people with disabilities are using assistive technology (AT) to assist them in daily tasks, and discusses emotional issues related to AT/AD.
