The Internet of Things describes a world in which smart technologies enable objects with a network to communicate with each other and interface with humans effortlessly. This connected world of convenience and technology does not come without its drawbacks, as interconnectivity implies hackability. Security Solutions for Hyperconnectivity and the Internet of Things offers insights from cutting-edge research about the strategies and techniques that can be implemented to protect against cyber-attacks. Calling for revolutionary protection strategies to reassess security, this book is an essential resource for programmers, engineers, business professionals, researchers, and advanced students in relevant fields.

The British Retail Consortium represents UK retailers of all sizes and sectors, and seeks to promote wider understanding of the industry's contribution to the UK economy. This yearbook provides information on the organisation, membership and activities, with a directory of membership. It contains an essay on the value of retailing within the economy as well as other perspectives on retailing, such as: corporate responsibility; emerging markets; falling margins and
