Advances in Digital Forensics VI describes original research results and innovative applications in the discipline of digital forensics. In addition, it highlights some of the major technical and legal issues related to digital evidence and electronic crime investigations. The areas of coverage include: Themes and Issues, Forensic Techniques, Internet Crime Investigations, Live Forensics, Advanced Forensic Techniques, and Forensic Tools. This book is the sixth volume in the annual series produced by the International Federation for Information Processing (IFIP) Working Group 11.9 on Digital Forensics, an international community of scientists, engineers and practitioners dedicated to advancing the state of the art of research and practice in digital forensics. The book contains a selection of twenty-one edited papers from the Sixth Annual IFIP WG 11.9 International Conference on Digital Forensics, held at the University of Hong Kong, Hong Kong, China, in January 2010.

"TRB's National Cooperative Highway Research Program (NCHRP) Report 545: Analytical Tools for Asset Management examines two tools developed to support tradeoff analysis for transportation asset management. The software tools and the accompanying documentation are designed to help state departments of transportation and other transportation agencies identify, evaluate, and recommend investment decisions for managing the agency's infrastructure assets"--Publisher's description

(Volume 9) Part 60 (Appendices)

Title 40 Protection of Environment Part 60 (Appendices) - Volume 9
