The extent to which government should be involved with regulation in the private sector is much debated. More fundamentally, one might ask exactly what is regulation, why is it needed, how is it formulated, and how is it enforced? These questions are especially relevant at a time in United States history when federal involvement in spheres traditionally left to individuals is being widely debated on all sides of the political spectrum.

A concise but thorough resource, the guide provides a time-saving reference for the latest case law, and the most recent legislation affecting rulemaking.

The anthrax incidents following the 9/11 terrorist attacks put the spotlight on the nation's public health agencies, placing it under an unprecedented scrutiny that added new dimensions to the complex issues considered in this report. The Future of the Public's Health in the 21st Century reaffirms the vision of Healthy People 2010, and outlines a systems approach to assuring the nation's health in practice, research, and policy. This approach focuses on joining the unique resources and perspectives of diverse sectors and entities and challenges these groups to work in a concerted, strategic way to promote and protect the public's health. Focusing on diverse partnerships as the framework for public health, the book discusses: The need for a shift from an individual to a population-based approach in practice, research, policy, and community engagement. The status of the governmental public health infrastructure and what needs to be improved, including its interface with the health care delivery system. The roles nongovernment actors, such as academia, business, local communities and the media can play in creating a healthy nation. Providing an accessible analysis, this book will be important to public health policy-makers and practitioners, business and community leaders, health advocates, educators and journalists.

Building on the success of a much-loved elementary text, Essentials of Middle and Secondary Social Studies focuses on the key issues central to the actual teaching of middle and high school social studies, including lesson planning and inclusive instructional strategies. Written in an engaging, conversational style, the text encourages teachers in their development as professionals and enables them to effectively use creative and active learning strategies in the everyday classroom. Features of the book include: • A full chapter on lesson plans designed to provide middle and secondary social studies teachers with classroom tested lesson plans. The chapter includes two classroom tested lessons for each social science discipline—U.S. History, World History, Geography, Government, Economics, Psychology, & Sociology. • A chapter on technology that is designed to better prepare middle and secondary social studies teachers to effectively teach social studies with technology. Attention is given to digital history, media literacy, teaching with film and music, and numerous other types of impactful technology. • Each teaching methodology and lesson plan discusses how the strategy can be used to meet the individual needs of diverse learners, including English Language Learners and exceptional education students. • A section in each chapter provides various resources for further development. The section includes articles, books, and web resources. • Each chapter includes an "Extension" activity offering readers with the opportunity to extend the learning experience with relevant and meaningful real-life scenarios. • "Focus activities" give readers the opportunity to prepare for the learning experience with relevant and meaningful scenarios. • Covers current topics such as NCSS Standards, Common Core State Standards, Technology, Media, Skills, Character Education, and Literacy.
