This report highlights the commitments for the UK from the conclusions agreed in the 'Rio+20' Summit. It was regretted that the Deputy Prime Minister declined to give evidence. It was also regretted that the Prime Minister did not attend the Rio+20 Summit. His absence undermined the Government's attempts to demonstrate its commitment to the sustainable development agenda, not just internationally but also at home in the UK. The conclusions of the Summit itself disappointed many with a lack of concrete agreement on key areas. On the other hand, many welcomed the firm commitment to develop new Sustainable Development Goals. The development of the SDGs and the Post-2015 Development Goals should be carried out jointly. The Prime Minister should take advantage of his position as co-chair of that High Level Panel to continue to push for integration of sustainable development targets with poverty eradication and climate change targets. Permanent mechanisms should be established to continue engagement with a wider range of NGOs and businesses and examine the scope for introducing wider-ranging 'sustainability reporting' for the private sector. New Sustainable Development Indicators which will complement such Government reporting, will reflect our call for emissions Indicators to be on a consumption (rather than just a production) basis. The Summit included commitments on education and the Government should remind schools of the scope for addressing sustainable development in their learning plans. Alongside this report, the Committee's scrutiny of the Government's progress in embedding sustainable development in its own policies and programmes is also being published (HC 202, session 2013-14, ISBN 9780215058911)
