Susan Sontag has said that her earliest idea of what a writer should be was "someone who is interested in everything." Thirty-five years after her first collection of essays, the now classic *Against Interpretation*, our most important essayist has chosen more than forty longer and

shorter pieces from the last two decades that illustrate a deeply felt, kaleidoscopic array of interests, passions, observations, and ideas. "Reading" offers ardent, freewheeling considerations of talismanic writers from her own private canon, such as Marina Tsvetaeva, Randall Jarrell, Roland Barthes, Machado de Assis, W. G. Sebald, Borges, and Elizabeth Hardwick. "Seeing" is a series of luminous and incisive encounters with film, dance, photography, painting, opera, and theatre. And in the final section, "There and Here," Sontag explores some of her own commitments: to the work (and activism) of conscience, to the concreteness of historical understanding, and to the vocation of the writer. Where the Stress Falls records a great American writer's urgent engagement with some of the most significant aesthetic and moral issues of the late twentieth century, and provides a brilliant and clear-eyed appraisal of what is at stake, in this new century, in the survival of that inheritance.

In eight stories, this singular collection of short fiction written over the course of ten years explores the terrain of modern urban life. In reflective, telegraphic prose, Susan Sontag confronts the reader with exposed workings of an impassioned intellect in narratives seamed with many of the themes of her essays—the nature of knowing, our relationship with the past, and the future in an alienated present.

A second volume of journals shares intimate reflections on the writer's artistic and political development during a trip to Hanoi at the peak of the Vietnam War and throughout her film-making years in Sweden before the dawn of the Reagan era.

A brilliant, clear-eyed new consideration of the visual representation of violence in our culture--its ubiquity, meanings, and effects Watching the evening news offers constant evidence of atrocity--a daily commonplace in our "society of spectacle." But are viewers inured -or incited--to violence by the daily depiction of cruelty and horror? Is the viewer's perception of reality eroded by the universal availability of imagery intended to shock? In her first full-scale investigation of the role of imagery in our culture since her now-classic book *On Photography* defined the terms of the debate twenty-five years ago, Susan Sontag cuts through circular arguments about how pictures can inspire dissent or foster violence as she takes a fresh look at the representation of atrocity--from Goya's *The Disasters of War* to photographs of the American Civil War, lynchings of blacks in the South, and Dachau and Auschwitz to contemporary horrific images of Bosnia, Sierra Leone, Rwanda, and New York City on September 11, 2001. As John Berger wrote when *On Photography* was first published, "All future discussions or analysis of the role of photography in the affluent mass-media societies is now bound to begin with her book." Sontag's new book, a startling reappraisal of the intersection of "information", "news," "art," and politics in the contemporary depiction of war and disaster, will be equally essential. It will forever alter our thinking about the uses and meanings of images in our world.

Sontag's incisive intelligence, expressive brilliance, and deep curiosity about art, politics, and the writer's responsibility to bear witness have secured her place as one of the most important thinkers and writers of the twentieth century. This collecti

The photographs by Annie Leibovitz in *Women*, taken especially for the book, encompass a broad spectrum of subjects: a rap artist, an astronaut, two Supreme Court justices, farmers, coal miners, movie stars, showgirls, rodeo riders, socialites, reporters, dancers, a maid, a general, a surgeon, the First Lady of the United States, the secretary of state, a senator, rock stars, prostitutes, teachers, singers, athletes, poets, writers, painters, musicians, theater directors, political activists, performance artists, and businesswomen. "Each of these pictures must stand on its own," Susan Sontag writes in the essay that accompanies the portraits. "But the ensemble says, So this what women are now -- as different, as varied, as heroic, as forlorn, as conventional, as unconventional as this."

Both a memoir and an investigation, *Swimming in a Sea of Death* is David Rieff's loving tribute to his mother, the writer Susan Sontag, and her final battle with cancer. Rieff's brave, passionate, and unsparing witness of the last nine months of her life, from her initial diagnosis to her death, is both an intensely personal portrait of the relationship between a mother and a son, and a reflection on what it is like to try to help someone gravely ill in her fight to go on living and, when the time comes, to die with dignity. Rieff offers no easy answers. Instead, his intensely personal book is a meditation on what it means to confront death in our culture. In his most profound work, this brilliant writer confronts the blunt feelings of the survivor -- the guilt, the self-questioning, the sense of not having done enough. And he tries to understand what it means to desire so desperately, as his mother did to the end of her life, to try almost anything

in order to go on living. Drawing on his mother's heroic struggle, paying tribute to her doctors' ingenuity and faithfulness, and determined to tell what happened to them all, *Swimming in a Sea of Death* subtly draws wider lessons that will be of value to others when they find themselves in the same situation.

A memoir of the writer responsible for the avant-garde "Against Interpretation" depicts her as a magnetic, outsized personality and a polarizing presence who made being an intellectual a glamorous occupation.
