The Book of Evidence is a 1989 novel by John Banville. The book is narrated by Freddie Montgomery, a 38-year-old scientist, who murders a servant girl during an attempt to steal a painting from a neighbour. Freddie is an aimless drifter, and though he is a perceptive observer of himself and his surroundings, he is largely amoral. Many of the characters in The Book of Evidence appear in the 1993 sequel Ghosts.

John Banville's Book of Evidence is a disturbing short novel about Freddie Montgomery, a man who has committed murder. This is his account of his life and what led him to kill. Needless to say, it is disturbing. Freddie rambles, filling his audience in on his life in bits and pieces, going back and forth in time without taking a break.

The Book of Evidence is the first-person prison testimony of Freddie Montgomery - convicted for the ghastly and seemingly motiveless kidnap and murder of a young woman. Trying to make sense of the crime that destroys life - and the career of the friend who unwittingly harbours him - Freddie 's monologue is also an attempt to come to terms with forty years of aimless drifting and dissolution, and to find some glimpse of order in an apparently random world.

In The Book of Evidence the unreliable testimony of Freddie Montgomery elicits a subtext on the inevitable madness of the colonizer trapped in an anachronistic identity of superiority in a post-colonial environment. This argument offers two ways of interpreting the madness of the outdated superior colonizer as depicted by Banville.

John Banville ' s stunning powers of mimicry are brilliantly on display in this engrossing novel, the darkly compelling confession of an improbable murderer. Freddie Montgomery is a highly cultured man, a husband and father living the life of a dissolute exile on a Mediterranean island. When a debt comes due and his wife and child are held as collateral, he returns to Ireland to secure funds. That pursuit leads to murder. And here is his attempt to present evidence, not of his innocence, but of his life, of the events that lead to the murder he committed because he could. Like a hero out of Nabokov or Camus, Montgomery is a chillingly articulate, self-aware, and amoral being, whose humanity is painfully on display.

In this brilliantly haunting new novel, John Banville forges an unforgettable amalgam of enchantment and menace that suggests both *The Tempest* and his own acclaimed *The Book of Evidence*. "A surreal and exquisitely lyrical new novel by one of the great stylists writing in English today."--*Boston Globe*.

The Book of Evidence: Freddie Montgomery is an aimless, eccentric, and highly cultured man whose arrest for the murder of a servant girl prompts him to offer the reader an extended testimony of the the circumstances that led to and (in his chillingly amoral mind) justified his grisly crime. *The Sea*: Follows retired art historian Max Morden to the seaside town where he spent his childhood summers. Max is grieving the loss of his wife, Anna, but returning to the seaside brings back intense memories of the wealthy and mysterious family in whose presence he had first learned about love and loss.

One of the most dazzling and adventurous writers now working in English takes on the enigma of the Cambridge spies in a novel of exquisite menace, biting social comedy, and vertiginous moral complexity. The narrator is the elderly Victor Maskell, formerly of British intelligence, for many years art expert to the Queen. Now he has been unmasked as a Russian agent and subjected to a disgrace that is almost a kind of death. But at whose instigation? As Maskell retraces his tortuous path from his recruitment at Cambridge to the airless upper regions of the establishment, we discover a figure of manifold doubleness: Irishman and Englishman; husband, father, and lover of men; betrayer and dupe. Beautifully written, filled with convincing fictional portraits of Maskell's co-conspirators, and vibrant with the mysteries of loyalty and identity, *The Untouchable* places John Banville in the select company of both Conrad and Le Carre. Winner of the Lannan Literary Award for Fiction "Contemporary fiction gets no better than this... Banville's books teem with life and humor." - Patrick McGrath, *The New York Times Book Review* "Victor Maskell is one of the great characters in recent fiction... *The Untouchable* is the best work of art in any medium on [its] subject." -*Washington Post Book World* "As remarkable a literary voice as any to come out of Ireland; Joyce and Beckett notwithstanding." -*San Francisco Chronicle*

THE BOOK OF EVIDENCE: Freddie Montgomery has committed two crimes. He stole a small Dutch master from a wealthy family friend, and he murdered a chambermaid who caught him in the act. This is a remarkable crime novel, unlike any other in its flawlessly flowing prose, its irony, its aching sense of loss. **GHOSTS:** An unnamed murderer has served his time in prison and now lives on a sparsely populated island with the enigmatic Professor Kreutznaer and his eery companion, Licht. Their uneasy calm is disturbed one day with the arrival of a party of castaways. A beautiful and beguiling novel full of resonances that continue to sound long after you have turned the final page, this is also one of Banville's funniest books. **ATHENA:** Morrow is at a loose end when, separately, two people beckon him up the stairs of an empty Dublin house. One offers work of a dubious kind; the other offers a sort of love. Banville's sleek, beautiful, breathtakingly cunning prose will leave the reader longing for more from this consummately skilled novelist. 'Banville writes a dangerous and clear-running prose and has a grim gift for seeing people's souls' Don De Lillo (on "*The Book of Evidence*")

For the first time, the final years of one of the world's most captivating rock showman are laid bare. Including interviews from Freddie Mercury's closest friends in the last years of his life, along with personal photographs, *Somebody to Love* is an authoritative biography of the great man. Here are previously unknown and startling facts about the singer and his life, moving detail on his lifelong search for love and personal fulfilment, and of course his tragic contraction of a then killer disease in the mid-1980s. Woven throughout Freddie's life is the shocking story of how the HIV virus came to hold the world in its grip, was cruelly labelled 'The Gay Plague' and the unwitting few who indirectly infected thousands of men, women and children - Freddie Mercury himself being one of the most famous. The death of this vibrant and spectacularly talented rock star, shook the world of medicine as well as the world of music. *Somebody to Love* finally puts the record straight and pays detailed tribute to the man himself.

With an introduction by Colm Tóibín Shortlisted for the 1989 Booker Prize, *The Book of Evidence* by John Banville is a dark and unsettling crime classic. This special 25th anniversary edition features extra material. Frederick Charles St John Vanderveld Montgomery. Do you swear to tell the truth, the whole truth, and nothing but the truth? Don't make me laugh. Freddie Montgomery has committed two crimes. He stole a Dutch old-master painting from a wealthy family friend and murdered the chambermaid who caught him in the act. Narcissistic, greedy and reckless, Freddie travels through life apparently without remorse. However, as he narrates his testimony, he realises that the only person to be held responsible for his life, and his crimes, is himself. He just can't quite admit it yet . . . Shortlisted for the 1989 Booker Prize, John Banville's *The Book of Evidence* is a wonderfully dark, insightful and unnerving crime novel that takes us deep into the unreliable mind of an improbable murderer.

The book demonstrates how politicians and federal agencies dominated Fannie Mae and Freddie Mac and took just thirteen years to wreck the American dream of home ownership.

The Book of Evidence, shortlisted for the Booker prize in 1989 and *The Sea*, which won the Booker prize in 2005, take us into the hauntingly confused worlds of two ageing male protagonists - washed-up scientist Freddie Montgomery, desperate to explain why he is being held in an Irish prison for murder (*The Book of Evidence*) and recently widowed art historian Max Morden, who has returned to a sleepy seaside boarding house to relive the events of his first adolescent awakenings (*The Sea*). With spellbinding virtuosity, Banville piles ambiguity upon ambiguity to construct tense tales of sex, betrayal and self-deception, which keep us turning the page, while questioning our own certainties about memory and identity. In both works, the acclaimed Irish novelist is revealed at his masterful best, conjuring dark wit, suspense and drama from the stunning lyrical beauty of his near-perfect prose.
