In the island nation of Venesia, where going barefaced into society is scandalous, mask-maker Evie's life is changed forever when the bandit Chameleon kills her father, destroys her home, and brands her face with his own dangerous criminal mark.

With a failed marriage and bitter betrayal tucked in her suitcase of baggage, Jenna Gregor is admittedly cynical and pessimistic concerning men and the prospect of a lasting relationship. When Bennett Aston sweeps into her life like a sturdy gust of wind, she jumps to defend herself at every angle from his easy confidence, southern charm, and unnerving good looks. But in the shadows of Jenna's past lay deep secrets. And there, a mad woman lurks in the darkness, ready to ruin all Jenna holds dear. As life as Jenna knows it begins to unravel, she finds herself in a tangled web of lies, suspicion, and murder. She must look deep inside herself to find the courage for forgiveness, trust, and self-acceptance. Only then will she discover love, redemption, and ultimately, survival.

Beatrice had a secretive and unusual life. In death, instead of eternal rest, she became a central figure in the battle between good and evil and God's desire to change the afterlife.

Although Christina Stead is best known for the mid-century masterpiece set in Washington D.C. and Baltimore, **The Man Who Loved Children**, it was not her only work about the America. Five of Christina Stead's mid-career novels deal with the United States, capturing and critiquing American life with characteristic sharpness and originality. In this examination of Stead's American work, Fiona Morrison explores Stead's profound engagement with American politics and culture and their influence on her "restlessly experimental" style. Through the turbulent political and artistic debates of the 1930s, the Second World War, and the emergence of McCarthyism, the "matter" of America provoked Stead to continue to create new ways of writing about politics, gender and modernity. This is the first critical study to focus on Stead's time in America and its influence on her writing. Morrison argues compellingly that Stead's American novels "reveal the work of the greatest political woman writer of the mid twentieth century", and that Stead's account of American ideology and national identity remains extraordinarily prescient, even today.

Still, there are worse ways to pass the days than in seclusion with such a scrumptious man. Before long their bedroom maneuvers make their previous affair seem G-rated. All too soon, however, they have to return to the real world—and the threat facing Lauren. Logically, she knows she should let Carson go. But how long can she go without this hot sex?
