From the often Caldecott-buzzed Deborah Freedman, a sweet and funny story about finding your place in the world. Carl is an earthworm. He spends

his days happily
tunneling in the soil
until a field mouse asks
him a simple question
that stops him short:
"Why?" Carl's quest
takes him on an
adventure to meet all the
animals of the forest,
each of whom seems to
know exactly what they
were put on this earth to
do, unlike the curious
Carl. But it's not until

the world around him
has changed that Carl
begins to realize
everyone, no matter
how small, makes a big
difference just by being
themselves.

Wonderful Worms
encourages an
appreciation for the
small creatures of the
earth by explaining the
vital role that

earthworms play in the planet's ecosystem. The book also contains informative charts and cross-section illustrations of the worm's underground environment.
